AIM OF THE COURSE:

During the last two years, the number of fatal hijackings has grown exponentially. The better prepared a potential victim is, the greater probability of that person surviving the attack with limited physical injury. This comprehensive course is designed to equip the learner with practical exercises and solutions to avoid a possible hi-jacking situation. Intense focus is placed on the learner's assertiveness of his/her everyday environment.

LEARNING OBJECTIVES:

Delegates will gain practical experience and a clear understanding of the following:

- Types of hijackings
- Daily environmental awareness and immediate surroundings
- Avoid possible hijackings as far as reasonably possible
- Reduce, limit and control risk factors
- Suspicious vehicles and persons
- Vulnerable situations to avoid
- Recognise a typical hijacker profile and their motivation

SUMMARY OF CONTENT:

- Introduction and history of hijacking
- Hijacking crime statistics
- Improve awareness to best avoid possible hijackings
- Know your environment and reducing your risk
- Suspicious vehicles or persons
- Vulnerable situations – day and night
- The hijacker profile and types of hijackings
- Response to hijackings (passengers)
- Aggressive drivers, road rage, smash and grab, defensive driving, household safety

TRAINING METHODS AND APPLICATION:

- Proxima presentation
- Facilitated group discussions
- Participant manual with the presentation materials
- Practical
 - Possible hi-jacking scenario or dangerous situations based on previous incidents and latest trends
 - Practical around a stationary vehicle - Approaching / Entering / Whilst driving / Parking / Exiting

TARGET GROUP:
